Objective

Computer Science student seeking a Frontend Developer internship or entry-level role. Experienced in building responsive, user-centric web interfaces with HTML5, CSS3, and JavaScript, and currently expanding skills in React. Eager to contribute to real-world frontend projects within a collaborative team.

Technical Skills

Languages: HTML5, CSS3, JavaScript (ES6+), PHP, SQL

Frameworks/Libraries: React (learning), Bootstrap

Concepts: Responsive Web Design, CSS Flexbox, REST APIs (learning), DOM Manipulation

Databases: MySQL

Tools: Git, GitHub, Visual Studio Code

Education

BS Computer Science

Oct 2024 – 2028 (Expected)

Cholistan University of Veterinary and Animal Sciences, Bahawalpur

Intermediate in Computer Science (ICS)

2022 – 2024

Govt. Graduate College, Baghdad Road, Bahawalpur

Projects

Web Forum Application – HTML5, CSS3, JavaScript, PHP, MySQL

[GitHub](#)

- Built a full-stack web forum with user authentication and dynamic content posting
- Designed a relational database schema in MySQL to manage users, posts, and interactions
- Implemented end-to-end functionality spanning frontend UI and backend logic

Weather App – HTML5, CSS3, JavaScript, OpenWeatherMap API

[GitHub](#)

- Developed a responsive weather application that fetches and displays real-time data via the OpenWeatherMap API
- Implemented dynamic DOM updates to render location-based weather conditions
- Built a clean, mobile-friendly UI using CSS Flexbox

Netflix UI Clone – HTML5, CSS3, JavaScript

[GitHub](#)

- Recreated the Netflix landing page interface with pixel-focused, responsive design
- Implemented CSS Flexbox layouts for cross-device compatibility
- Focused on clean component structure and visual fidelity to the original UI

Certifications

- JavaScript Essentials: From Basics to DOM
- Introduction to Front-End Development
